150W TRANSFORMER

Electrical

- 4 taps: 12V, 13V 14V, and 15V
- Magnetic core
- 5' heavy-duty power cord
- Primary side with thermal protector that will shut off if unit overheats
- Secondary side circuit breaker in case of shortage or exceeded wattage

Housing Details

Material: Stainless Steel

Mounting: Mounting bracket with three holes for installation

Dimensions: 5.75" L x 5.25" W x 16.5" H (not incl mount)

- Bottom panel pre-punched with four conduit knockouts
- Magnetic, lockable door swings up and down for easy installation
- Lifetime warranty

- Do not exceed 2.5 AMPS on primary
- Mount unit at least 1' above ground level
- Install transformer 5' or more from pool, spa, fountain, or other waterscape

The **Hearthstone 150W Transformer** is built for reliability and simplicity on the job. Housed in durable stainless steel, it features four voltage taps (12V, 13V, 14V, 15V), a magnetic core, and a heavy-duty 5' power cord. The internal thermal protector and secondary circuit breaker provide added safety and peace of mind. With a magnetic, lockable door and pre-punched knockouts, installation is quick and secure.

Recommended Accessories

DT122k Timer
Digital timer for simple, reliable control of low-voltage lighting.

Photocell
Photocell sensor for automatic dusk-to-dawn lighting control.

6-in-1 Screwdriver
Multi-bit screwdriver for securing wire connections to transformer taps and terminals.

Cutter Crimper Pliers
Cutter-crimper pliers for trimming wire and crimping connectors during transformer installs.
